The State Government has now requested that the college be reconstructed using the approved funds under this component. passing the “Madhabdev University Act, 2017” and Vice Chancellor has been appointed in the last month.

The State Government has requested for continuation of funding to the institution, as approved in the 13th PAB.

PAB Decision:

The proposal of the State Government for continuation of funding was approved.

AGENDA ITEM 5: OTHER ISSUES FOR CONSIDERATION

1. Flexibility in utilisation as per need:

India is a big and diverse country. “One size fits all” is not a good policy. Every institution is unique with unique requirements to achieve the objective of the Scheme/Component. For optimum utilization and to achieve maximum benefits from limited funds, institutions have been asking for flexibilities in expenditure while keeping objectives of the scheme in mind.

Some Components specify limits of utilisation under expenditure heads like new construction, renovation, purchases etc., as given under:

- **Infrastructure grants to universities:** The State can spend maximum 50% of the total cost in case of new construction, renovation/upgrade and equipment each. For e.g., the expenditure ratios could be 40:50:10; or 50:30:20; or 45:45:10, etc.
- **Enhancing Quality and Excellence in select State Universities:** No more than 30% would be spent on construction and Equipment
- **Upgradation to MDC:** The State can spend maximum 40% of the total cost in case of new construction, renovation/upgrade and equipment each. For e.g., the expenditure ratios could be 40:40:20; or 40:30:30, etc.
- **Enhancing Quality and Excellence in select Autonomous Colleges:** No more than 30% would be spent on construction and Equipment.

- **Infrastructure grants to colleges:** The State can spend maximum 50% of the total cost in case of new construction, renovation/upgrade and equipment each. For e.g., the expenditure ratios could be 40:50:10; or 50:30:20; or 45:45:10, etc.
- **Research, Innovation and quality improvement:** Expenditure on soft components would be restricted to 60% of the total cost of the estimate. 40% would be towards expenditure on hard components. Hard components include buildings, furniture, fixtures, equipment etc. However, computers and ICT infrastructure, books and consumables would not be treated as hard components.

These above mentioned requirements either slowdown the pace of utilisation of funds in some cases or encourages utilising grants where there is no such requirement. Few states have requested flexibility on the above mentioned components. Desired flexibility may be given to utilize the grants as per the requirement of the institutions within the specified objectives

PAB Decision:

The proposal is approved with a caution that the grants shall be utilised for construction of building only when it is unavoidable. Further, the approval is subject to the condition that DPRs will be revised keeping the objectives of the scheme in mind and re-submitted by 31st October, 2019, (wherever applicable). The revised DPR or any flexibility sought would be approved by a committee consisting of the following:

- i. **National Mission Director (NMD-RUSA)**
 - ii. **National Project Coordinator (NPC-RUSA)**
 - iii. **Director (RUSA-MHRD)**
 - iv. **An eminent expert**
2. **Formation of Special Purpose Vehicle (SPV)** is required for Component 4 (Enhancing Quality and Excellence in select State Universities). Some universities have informed that they find it difficult to form/function through SPV, and thereby defeating the very purpose of SPV, which is expeditious decision making and implementation. In this regard, communication has been sent from the Ministry allowing flexibility to form SPV (Society/Section 8 company), or function through existing mechanism.

PAB Decision:

The proposal was ratified

3. Relaxation in utilization requirement:

There are instances where an institution has been approved under the same Component under both RUSA 1.0 & 2.0 (like institutions from Sikkim, Manipur, Arunachal Pradesh, Meghalaya and Assam).

In those cases, release of Central grants to them under RUSA 2.0 is conditional upon utilising 100% grants approved under RUSA 1.0.

This leads to delay in starting the new project and utilisation.

The TSG proposed that Central grants may be released to those institutions upon utilisation of 75% of grants approved under RUSA 1.0, instead of 100% utilisation. In addition, a commitment may be obtained that there would not be duplication of expenditure out of grants from RUSA 1.0 & 2.0.

PAB Decision:

The proposal is approved

AGENDA ITEM 6: REVIEW OF PERFORMANCE UNDER RUSA

PAB Decision:

All the States and UTs were urged to expedite utilization and ensure timely completion of projects. Further, all the States & UTs to utilize at least 75% of Central grants released till date for RUSA 1 & 2 and submit UC for the same by December, 2019. A detailed review for all the States/UTs would be undertaken by 31st October, 2019.

Other decisions of Chairperson, PAB

1. All States/UTs and Institutions approved under RUSA would implement EAT module of PFMS. For guidance under the same, MHRD will conduct a workshop for all States/UTs.
2. The progress of the institutions funded under various components shall be tracked specially w.r.t. NIRF Ranking, NAAC Score, Research Citation, Patent etc.

3. The States were invited to submit proposals for remaining slots under Components 2 & 3.
4. Universities approved under Components 4 & 10 in RUSA 2.0 would be reviewed every quarter by the MHRD.
5. States were encouraged to make use of Annual Refresher Programme in Teaching (ARPIT) initiative of UGC for faculty members, for both refresher and induction programmes. For more information Dr. Archana Thakur, Joint Secretary, ARPIT, UGC may be contacted.
6. For Components 4 & 10, a workshop would be held with all the universities to streamline implementation of the Entrepreneurship, Employability and Innovation Hub. Further, to decide on the modalities for evaluation of research proposals by 20 universities (Rs. 35 crore, under Component 10), a framework would be shared by the Ministry shortly.
7. In the 15th PAB, one New College (Professional) was approved at Surat District of the Gujarat. The State Govt. has now requested that the college be allowed to be a Pharmacy college.

PAB decision:

As proposed by the State, PAB approved for setting up of a New College (Professional) for Pharmacy at Surat. Further, the PAB directed that henceforth the AICTE norms, including provision of land for the College, may be followed.

Comments of Chairman, UGC

1. The working hours per teacher is 40 hours a week and the teacher has to be available for at least 7 hours daily in the University/College. Details of workload teachers is clearly mentioned in UGC Regulation.
2. Performance of institutions under NIRF would be one of the parameters for funding in future. Till date, 167 universities have been identified as mentors and would be funded for the same.
3. States encouraged to make use of research funds available under various schemes, including Scheme for Trans-disciplinary Research for India's Developing Economy (STRIDE).

4. States/Institutions were also advised to avail of the various initiatives of UGC to promote accreditation such as PARAMARSH and ensure that all the institutions are accredited.
5. **Comments of Vice-Chairman, AICTE:** AICTE has prepared model curriculum in alignment with global standards and industry requirements. All the States and universities need to ensure that the same is implemented. States/Institutions were also advised to avail benefits of the various initiatives of AICTE, available on its website.

The meeting ended with vote of thanks.
